

Self Assemble Drinks Calculator

Part A

Brass fastener

Part B

Instructions

Step 1

Cut around the dotted lines of parts A and B.

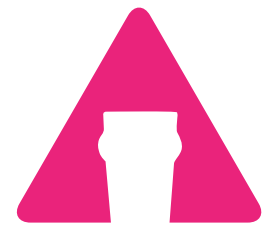

Step 2

Cut out the units window in part A.

Step 3

Place part A over part B and secure the two parts together by piercing a hole through the centre of parts A & B with the brass fastener and secure by opening the wings of the brass fastener.

You should now have a completed drinks wheel calculator.
